## ABOUT US

Geonise was founded with a belief that humankind has a deep relationship with sound. This is why we are determined to explore the possibilities of what we can do with it.

After over 20 years of experience, we figured that we love the feeling of witnessing how people discover their experience and knowledge with sound. We feel it when we help to create ideal acoustic environments and when we show people the best acoustic tools to handle their job. We're a partner ready to serve you anywhere in Asia.

# OUR TEAM

---

**Michel T.H. Rosmolen**  
President of Geonoise Asia Group / Principal Acoustic Engineer

Michel is a seasoned Acoustic Engineer who has practiced Engineering and Business in the Netherlands and Southeast Asia with more than 35 years of experience. He is currently residing in Thailand and is determined to spread awareness of Acoustics and Noise, especially in Asia. His contributions in the Acoustics community including his role as a director in IIAV (International Institute for Acoustics and Vibration), Regional Responsibility in International Year of Sound 2020 and numerous board and memberships in Acoustical Associations across the globe.

---

**Hizkia Natanael**  
Director of Geonoise Indonesia / Acoustic Engineer

Hizkia is an Acoustic Engineer with various experience in Environmental, Industrial and Building Noise in Thailand and Indonesia for Transportation, Energy, and Built Environment Industry. Beside consulting activities, he has conducted trainings mainly in environmental and industrial noise in many countries in Asia. Currently he is the Director of PT. Global Suara Indonesia, a member company of Geonoise Asia.

**Ramadhan Akmal Putra**  
Associate Director of Geonoise Indonesia / Acoustic Engineer

Akmal is a professionally qualified engineering physicist who has specialized in acoustics since graduation with honors from Institut Teknologi Bandung in 2013. He has extensive experiences in acoustic consultation fields for over 50 projects in Indonesia including residential housing estates, 5-stars hotels, fine dining restaurants and night clubs, commercial and mixed-use building developments and conducting rail and traffic noise studies.

# OUR SERVICES

## BUILDING

- Sound Insulation Design
- Room Acoustics
- Building Noise
- Sound Reinforcement System

## INDUSTRIAL

- Sound & Vibration Instrumentation
- Occupational Noise
- Industrial Noise Control
- Testing Facility Design

## ENVIRONMENT

- Noise Monitoring
- Noise Prediction
- Consultation
- Vibration Monitoring

## CALIBRATION

- Sound Level Meter
- Microphone
- Calibrator

Acousticians thrive when we work with fellow innovators and problem solvers to push society forward. With our expertise in every field of acoustics, we advance our client's work and create solutions for all challenges in acoustics.

# OUR PRODUCTS

## INSTRUMENTATION

**Norsonic**  
Sound & Vibration  
Instrumentation

**Bedrock**  
Sound  
Instrumentation

**PLACID**  
Sensor &  
Impedance Tube

**Convergence**  
Sound & Vibration  
Monitoring System

**Sonitus**  
Noise Monitor

**MMF**  
Vibration  
Instrumentation

**GTi**  
Machine  
Conditiong  
Monitoring

**Profound**  
SIT & Vibration  
Monitoring

## SOFTWARE

**SoundPLAN**  
Noise Prediction  
Software

**NoiseAtWork**  
Noise Mapping  
Software

**ODEON**  
Room Acoustics

**SonArchitect**  
Building Acoustic  
Prediction

**INSUL**  
Acoustic  
Insulation  
Prediction

**CATEC**  
Measurement and  
Analysis Software

**SIDLAB**  
Duct Borne Noise  
Prediction

**ZORBA**  
Acoustic  
Absorption  
Prediction
